Woodworth Avenue Construction

South Edgeware Road to Highway 3

Public Information Centre

The City of St. Thomas is finalizing the design of the Woodworth Avenue Construction project for construction in 2026. The work includes replacement of sanitary sewers, storm sewers, watermain and roadwork as well as the addition sanitary forcemains along Woodworth Avenue from South Edgeware Road to Highway 3.

The proposed design uses a Complete Streets approach to improve and enhance accessibility for all road users including vehicles, cyclists, and pedestrians of all ages and abilities. The project will include an urbanized cross section, replacing the ditches and culverts with new curb and gutter, and providing a sidewalk along the west side of the street. To accommodate the new cross section, changes to on-street parking are planned to allow parking on one side of the street only, in accordance with the City's local road standard.

We invite you to a drop-in style Public Information Centre where you can learn more about this project, view the plans and discuss the proposed improvements with City staff.

Public Information Centre:

Date:	• Thursday, November 27, 2025
Time:	• 6:00 – 7:00 pm (drop in anytime)
Location:	• City Hall, Room 304 (Level 3) 545 Talbot Street, St. Thomas
Purpose:	• Informal drop-in style PIC where you can view the construction plans and ask questions of City staff

Project Details:

Location:	• Woodworth Avenue – South Edgeware Road to Highway 3
Schedule:	• Early Spring – Fall 2026
Scope of Work:	• Sanitary and storm sewers, sanitary forcemains, watermain, utility relocations, drainage improvements, roadwork, sidewalk
