South Edgeware Road Construction - Waterworks Park to Highbury Avenue

The City of St. Thomas is finalizing the detailed design for construction on South Edgeware Road from Waterworks Park to Highbury Avenue, and construction is expected to begin in early Spring 2027. The work is part of the City's plan to provide servicing to the Yarmouth Yards industrial development, renew aging infrastructure, and accommodate growth in the City of St. Thomas. The project includes improvements along Dalewood Road from South Edgeware Road to Woodworth Crescent.

The project scope includes new trunk sewers and forcemain, replacement of storm sewers, watermain, and roadway infrastructure. Roundabouts are planned at the intersection of Balaclava Street and South Edgeware Road and the intersection of Burwell Road and South Edgeware Road. The proposed design uses a Complete Streets approach to improve and enhance accessibility for all road users, with added sidewalks, improved pedestrian crossings, and a new multi-use path to enhance the City's active transportation network.

We invite you to a drop-in style Public Information Centre where you can learn more about this project, view the plans and discuss the proposed improvements with City staff.

Public Information Centre:

Date & Time:	**Tuesday, August 18, 2026, 6:00 – 8:00 pm (drop in anytime)**
Location:	City Hall, Room 304 (Level 3), 545 Talbot St., St. Thomas, ON
Purpose:	Informal drop-in style PIC where you can view the construction plans and ask questions of City staff

Project Details:

Location:	South Edgeware Road – Waterworks Park to Highbury Avenue
Schedule:	**Phase 1 (2027)** Waterworks Park to Burwell Road and Dalewood Road – South Edgeware **Phase 2 (2028)** Burwell Road to Highbury Avenue
Scope of Work:	Sanitary and storm sewers, sanitary forcemains, watermain, utility relocations, drainage improvements, roadwork, intersection improvements, sidewalk, and restoration
