# St. George Street Construction
# Pearl Street Construction
# Public Information Centre

The City of St. Thomas has completed designs for the St. George Street Construction and Pearl Street Construction projects which are planned to proceed to construction in Spring 2026. These projects have been prioritized in the City's capital plan due to aging infrastructure and combined sewers. The work includes installation of new separate sanitary and storm sewers, watermain, roadwork and sidewalks. The project implements the City's "Complete Streets" philosophy to enhance accessibility for all road users including transit vehicles, cyclists, and pedestrians of all ages and abilities.

We invite you to a drop-in style Public Information Centre where you can learn more about this project, view the plans and discuss the proposed improvements with City staff.

**Public Information Centre:**

| | |
|---|---|
| Date: | • Tuesday, February 24, 2026 |
| Time: | • 6:00 – 7:00 pm (drop in anytime) |
